cialist for all the psculiar ills and ailments of women.

My daughter, Miss Mexister, was sick and we called in one of the best doctors here. She got so weak that I had to help her out of bed and draw her in a chair. She then tried some of Dr. Pierce's Favorite Prescription. In less than a week she was out of bed and has been work in g about five weeks now, and looks the picture of health. As for myself I am much better of my female complaint. Before taking the "Favorite Prescription," I suffered most of the time from extarrhal inflammation. Yours respectfully,
